2011 Trophy - *a new target*

We originally devised this event at the start of 2009 to encourage Club activity on the *VHF* bands, and as the last two years' RSGB UKAC results show, we can now boast the most active Club on VHF in the UK!

So we're changing tack for 2011 - to encourage our Members' participation in RSGB 80m contests, the **M3OTT Trophy** will be awarded for the best entry by a Club Member in the *80m Club Championship* events.

But originally devised as the *BWC Members' Activity Contest*, the event was re-named in honour of *Tony M3OTT*, who passed away in 2009.

It is an activity contest for BWC Members, designed to encourage our Members to try their hands at contesting. It's a *friendly* event, covering the 160m, 6m, 4m, 2m and 70cm bands, **with a power limit of 10W**

, so that all Licensees can compete on an equal footing. The event comprises two one-week sessions, in March and November, and the scores are accumulated between the two.

Bonus points are scored for contacts with other BWC Members, and with our two Club Stations (G0BWC and G1ONE) which will be active throughout both weeks.
